ABOUT & MY PROJECT

Professional in illustration, 2D animation and character design among others. I am currently developing my own animation short film "Mute Aromas" (since 2022 - present), although the idea arose in 2016.

I am the complete author of the film, from the screenplay, storyboard (thumbnails), animatic, concept art, foley (sound effects), animation, integration and composition, to the soundtrack and voice dubbing.

For now I am in the production phase and I estimate that it will be a short film of more than 12 minutes in length.
